Bronze :

+ see Publicshow : It's the normal streaming.

+write in Publicshow : Chat window

+send tip : send tip.

+ follow models : it is the heart symbol (favorit)

+Participate Auction : Model can do an auction. the model places an offer for all users who see the model live in publicshow with a minimum offer(the Model can set a offer with time and the webmaster can set a minimun for auction). the users have to bid . for a time the model places. every time someone give a new bid the time is extended by 2 minutes.when the time is over and nobody has bid anymore. then the auction ends. the name of the winner is shown then Only the winner user may see the model for the entered time. you cannot kick him away during this time. after the time has expired. the user will get a notification if he wants to extend and then the time per minute will be calculated. You can kick him away. For the other user is shown at the beginning : Model_name is in Winner show. when the time has expired. then is shown to the other user. Model_name is in 1-1 show.

+Participate Challenges: the model writes a target in publicshow status. with token price. {challenge day } and {target token should be shown} and {**HIGHEST TIP**: USER_NAME}

+ buy model Products : the user kann buy her products and videos.

+ 1-1 show request: It's a private show 1-1. as long as no Gold or Diamond member kicks him out because he pays more. then no one can look. For all Bronze user is displayed, Model is in Private show. For Gold and Diamond is displayed, Model is in Private show with a **button, kick out user**. if they click this button. then it is displayed that the current user pays an amount per minute. Gold and Diamond have to pay more.

+ participate Special show : Here is simply a show is also paid per minute. if you want to join must pay per minute. for the other users stands model_name is in Special show.

Gold:

Alle Bronze features + :

+Gold show : it's like a special show, but only for Gold and Diamond members. model can always set the price per minute and the webmaster can set a minimum amount. for bronze members they need to upgrade their account to watch the show.

+ Kick the bronze away from 1-1 : Gold users can kick bronze users out of 1-1 show by clicking kick out the user button.

+Name in gold : Here please the name in gold and maybe some feature in text chat more than bronze member. more emojis more text effects.

+ Model gets a notification when he joins the Public show and special show

+ Limited inbox message of 1 message per day

+ Mobile app notification when your favorite model is online (i have the mobile apps): if they buy a gold membership then they can also download the apps.

+ Advertising free

Diamond:

All Bronze and Gold feature +:

+Diamond show: it's like a special show, but only for Diamond members. model can always set the price per minute and the webmaster can set a minimum amount. for bronze and gold members they need to upgrade their account to watch the show.

+ Spy show: If the model is in 1-1 with anyone. then you can only see The Model Cam and can hear her. if the other user has his cam on or talking. you can neither see nor hear him. even if not. he can only see the model cam. nothing else.

+ Multiple Model in 1-1: The Diamond user can invite several models to 1-1 show, which means he alone with several models.

+Kick away bronze and gold from 1-1 : Diamond users can kick bronze and Gold users out of 1-1 show

by clicking kick out the user button.

+unlimited Inbox message

+ Being invisible : they can join in all show invisible except 1-1 show.

+ Your message in Inbox is preferred: in Models inbox the messages of Diamond are shown first and with diamond design (here please be creative) regardless of when they wrote.

+Diamond Text effect : Here please the name in Diamond and maybe some feature in text more than gold member. more emojis more text chat effects.

+ Room Message when he joins the show: There will be in text chat a welcome message with the name of the Diamond user. Unless he is Invisible.

Else:

model can choose what her streaming mode is : Public show , Special show , Gold show , Diamond show. she can set the price per minute and the webmaster can set a minimum.

Model can always add a title at the top of her show.

if model in Special show, Gold show, Diamond show, Private show then should frame the video with gold/ ... and text please be a bit creative here.

Alle shows are billig per minute except Public show,

the user can turn on their cam and audio in 1-1.

studios accounts must be removed.

in model registration page must a upload field with identity or passport. and only when the webmaster has confirmed this. the model account will be released.

Mail confirmation is also important.

Api OhMiBod / Lovense must be integrated that mean : if the model activated it. if they tip then the toy will vibrate. Is a API.
